

Innovative use of the communicative approach in teaching English

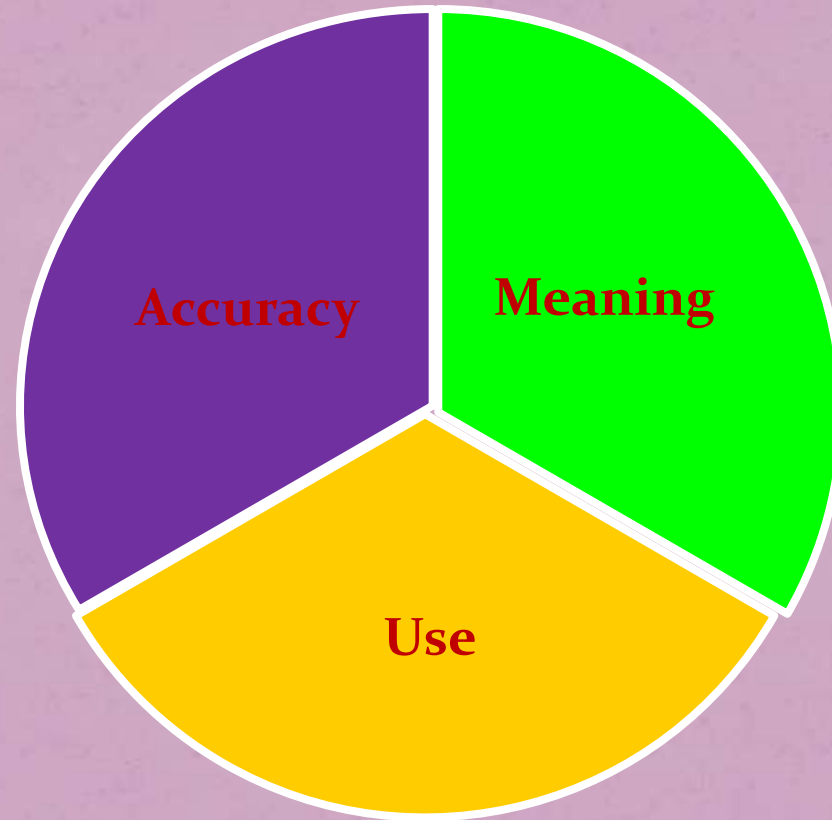

O.M. Ryzhkova

**WHEN NOTHING
GOES RIGHT...
GO LEFT.**

Principles of communicative approach

FIVE FEATURES

- **Communication through interaction**
- **Authentic texts into the learning situation**
- **Focusing on the learning process itself**
- **Learners' personal experience**
- **Links between classroom language and language activities outside the classroom**

PPP circle

When learners are able to perform the communicative functions that they need (knowing when and how to say what to whom) , they achieve **communicative competence**

Thank you for attention!
